ABSTRACT

This basic vocational related skills assessment module titled World of Work is one of sixteen modules designed to help teachers assess and identify some of the areas in which special needs students may encounter learning difficulties. The materials in the module allow for informal assessment in three basic areas: academic skills, motor skills, and vocational interest and awareness. The basic skills assessment includes reading skills, listening skills, using a book to locate information, and mathematics. The reading section offers materials written at two different reading levels: the first paragraph is easy (4-8), while the second paragraph is more difficult (9-12). The motor skills are assessed through teacher observation and recording on a matrices skills checklist. The third area, vocational interest and awareness, is assessed through a vocational awareness questionnaire completed by students. (LRA)

DESIGN AND IMPLEMENTATION OF AN ASSESSMENT MODEL FOR STUDENTS ENTERING VOCATIONAL EDUCATION PROGRAMS IN THE STATE OF COLORADO

Each learner should be considered as unique. All students have unique characteristics which are considered by alert teachers in their efforts to foster more effective learning. This is especially true in vocational programs where our opportunities to know each learner are greater than in some other classroom situations.

Douglas Towne
Sydney Wallace

The purpose of this project was to develop materials that could be utilized for informal assessment of students in vocational programs. The materials were then developed into a series of sixteen modules representing the seven service areas of vocational education. These modules will enable teachers to assess and identify some of the areas in which special needs students may encounter learning difficulties.

This project and the resulting modules are based on the assumption that one of the ways that vocational education can provide training "appropriate to the needs and progress of each ... individual," is to assess the needs of each individual. Another assumption is that "modifying" a vocational program may be done in many ways but cannot be done effectively until assessment of student needs has been completed. The modules will provide information that will enable vocational teachers to modify their materials or lessons based on the results of the assessment information.

Information which you obtain from the assessment may be used in the following ways:

grouping of students with similar instructional needs
placement of students in programs
modification of instructional materials
writing goals and objectives for the student
obtaining remedial help
as a model to devise your own materials
writing contracts for behavioral change
giving specific information to supplemental services or support staff for assisstance

Identification of learning problems clarifies the various level of abilities and the learning styles of students. This necessitates individualizing vocational programs and instruction.

The modules include basic academic skill assessment, motor skill assessment, and interest assessment.

The following vocational areas are included in the modules:

1) *Welding*
2) *Sheet Metal*
3) *Agriculture*
4) *Graphic Arts*
5) *Woodworking*
6) *Automotive*
7) *Autobody*
8) *Drafting*
9) *Health Occupations*
10) *World of Work*
11) *Food Preparation*
12) *Child Care*
13) *Distributive Education*
14) *Electricity*
15) *Horticulture*
16) *Business and Office Occupations*

The assessment of student abilities are important for success in the vocational classroom. The basic skills assessment includes Reading Skills, Listening Skills, Using a book to locate information, and Mathematics. The mathematics section covers many of the basic operations and applications of math that is needed in vocational classes.

The reading section offers paragraphs written at two different reading levels; the first paragraph being easy (4-8), the second paragraph more difficult (9-12). Those students who have trouble with both paragraphs will find it difficult to learn through reading.

As a result of the field testing comments, there are two areas which are only included in the module entitled, World of Work. These two areas are "Following Directions" and "Safety Warnings Quiz". They were judged too "easy" for inclusion in all modules. This module was written specifically for students in disadvantaged and handicapped programs.

Materials are color coded for ease of usage and efficiency.

MATRICES
SKILLS CHECK LISTS

DIRECTIONS TO THE TEACHER:

* This section is designed to assess capabilities that are not easily quantifiable. Therefore, you will use these as observation instruments.
* More than anything else, these are to be used as diagnostic tools to help establish goals and objectives.
* Using the matrices, observe the student over a period of several weeks in several different situations.
* There are many reasons for poor or below average levels of performance. These may include environmental influences and health, i.e., stress, nutrition, physical limitations. The matrices are merely a guide to reflect how well a student is doing in your area.

DIRECTIONS: Please check the level each student is at according to the following scale.

1. poor
2. below average
3. average
4. good
5. very good
6. n/a

STUDENT	MATRIX SKILLS CHECK LIST

Move Around Objects																
Use Large Tools																
Small Motor-eye-hand Coordination																
Two Hand Coordination																
Use Small Tools																
Finger Dexterity																
Steady Work Pace																
Heavy Lifting																

READING SKILLS

DIRECTIONS TO THE TEACHER:

This instrument is designed to assess how well the student understands written materials. The skills are broken into vocabulary, (Question 1-5), main ideas, (Question 6), details or facts, (Question 7), and inference or logical deduction, (Question 8).

1. Have students read each paragraph and then answer the questions on the following page. The students may refer to the original paragraph while completing the questions. (Time: approximately 15 minutes).
2. Collect all sheets.
3. Correct worksheets.

Vocabulary

a. For each vocabulary word listed (Questions 1-5), the student should leave a definition or synonym that shows an understanding of the word as it is used in the sentence. Score vocabulary questions as one (1) point each. Five (5) is a perfect score; zero (0) means none are correct.

Main Idea

b. In Question Six (6) you will assign a score of 1-5. The score should be based on how completely the student comprehends the paragraph.
   1) little knowledge or comprehension
   2) some grasp of paragraph
   3) fair idea of paragraph's content
   4) good idea of paragraph
   5) description which tells what the whole paragraph is about

Details

c. In Question Seven (7) a full score, five (5) points, should be based on whether the student puts down the two important facts.
   1) any one fact in the paragraph
   2) any two facts in the paragraph
   3) one fact that answers the statement well
   4) one fact that answers the statement well and any one that is in the paragraph
   5) Two facts that answer the statement well

Inference

d. In Question Eight (8) you are looking for an understanding that goes beyond what is in the paragraph.

1) any attempt to answer

2) any answer that even addresses the question

3) some idea of an extension of the basic knowledge

4) 5) a good answer which shows an understanding of the implications of the question.

EXAMPLE: A few words which describe what a good title for the paragraph is about would receive a score of four (4).

4. Total the scores (1-8), for each paragraph.

EXAMPLE:

	Paragraph 1		Paragraph 2		TOTAL
Vocabulary	_____	+	_____	=	_____
Main Idea	_____	+	_____	=	_____
Details	_____	+	_____	=	_____
Inference	_____	+	_____	=	_____

5. Enter the score from each area and the total on the class scoring sheet.

6. Paragraph one was chosen for student who have lower reading levels. Paragraph two was chosen for students who read at the high school level.

WORLD OF WORK
READING SKILLS I

READ THIS PARAGRAPH:

The employer's first IMPRESSION of you is based on how you look. Give some care to your GROOMING and clothes. You should, of course, take a bath before you dress for an interview. Some people forget to do this. Their body ODOR can end any chance of their being hired. Strong cigarette smell loses jobs too. This odor is annoying to people who do not smoke.

Your hair should be clean and neat. Fingernails should be clean and TRIMMED. Boys should shave to make a neat appearance. Girls should use only a little makeup.

Choose PROPER clothes for the interview. Remember that you are looking for a job, not going to a party. Do not wear a lot of jewelry for an interview. The clothes you choose will depend on the job.

ANSWER THE QUESTIONS ON THE NEXT PAGE

Grady Kimbrell, Ben S. Vineyard, Entering the World of Work, McKnight Publishing Company, 1978.

WORLD OF WORK
READING SKILLS II

READ THIS PARAGRAPH:

The Fair Labor Standards Act says that a company must pay you at least a certain amount for each hour of work. The company may pay you more than the MINIMUM wage set by law. But, it is ILLEGAL for a company to pay you less.

Beginning in 1976, the BASIC wage for most workers covered by the law was set at $2.30 an hour. For farm workers the basic wage was $2.20 an hour in 1977 and will become $2.30 an hour in 1978. Many workers, of course, receive more than the minimum. Many start at the minimum and then receive raises as they gain experience and SKILL. Many UNION contracts call for workers to start at rates higher than the minimum.

ANSWER THE QUESTIONS ON THE NEXT PAGE

Maurice E. Wilson, Growing on the Job, McGraw-Hill Company, 1977.

LISTENING SKILLS

DIRECTIONS TO THE TEACHER:

This test is designed to indicate how well your students use their auditory skills. They will be listening to a passage that is read two times. Then they will fill in the missing words on the answer sheet.

In order to utilize the Listening Skills Unit, the listening skills paragraph needs to be taped or read to the students by you.

Please read the directions on the student sheets to the class. The students may write on their answer sheets at any time during the two readings. The students should be asked to read the test sheet before listening to the tape.

GRADING:

The number correct is the total number of correct words filled in the blanks. Please accept reasonable substitutes for the words. Overlook poor spelling.

WORLD OF WORK

Ladder Safety

Many workers use ladders. Extension ladders may be made longer or shorter. They are used on construction jobs. Step ladders are used in most homes. Fixed ladders are used in factories.

Everyone should know how to use a ladder safely. Do you? Remember these points:

1. The ladder must stand on a level place.
2. Have someone help you set up a long ladder.
3. Be sure all locks on an extension ladder are tight.
4. Be sure a step ladder is open all the way and locked.
5. A ladder should reach three feet above the roof.
6. On windy days, tie the ladder with rope to something strong, such as the house or a tree.
7. Face the ladder when you go up or down.
8. Never climb higher than three rungs from the top.
9. Be sure your shoes grip the ladder rungs.
10. Keep ladder rungs free of mud and grease.

PARAGRAPH TO BE READ OR TAPED

WORLD OF WORK
LISTENING SKILLS

ANSWERS

Ladder Safety:

I. Types of Ladders

1. Extension ladders
   They can be made short or long.
   Used on construction.
2. Step ladders (are used at home).
3. Fixed ladders (are used in factories).

II. Ladder Safety Points

1. Stand ladder on level place.
2. Have someone help with long ladder.
3. Be sure locks are tight.
4. Be sure step ladder is open all the way and locked.
5. Ladder should reach (three feet) above roof.
6. On windy days tie ladder.
7. Face the ladder when climbing.
8. Never climb more than three rungs.
9. Be sure shoes grip rungs.
10. Keep ladder free of mud and grease.

LISTENING SKILLS

DIRECTIONS TO STUDENT:

You will hear a passage read from the book just mentioned. The passage will be read once quickly and then again slowly.
Listen carefully to the passage each time it is read. As you listen to the passage being read fill in the blanks. You will fill in the facts that you hear on your answer sheet.

READ YOUR SHEET THROUGH BEFORE LISTENING TO THE TAPE.

Ladder Safety:

I. Types of Ladders

1. _____ ladders

They can be made short or long.

Used on _____.

2. _____ ladders (are used at home).

3. _____ ladders (are used in factories).

II. Ladder Safety Points

1. Stand ladder on _____ place.
2. Have someone help with _____ ladder.
3. Be sure _____ are_____.
4. Be sure step ladder is open all the way and _____.
5. Ladder should reach (three feet) above _____.
6. On windy days _____ ladder.
7. Face the ladder when _____.
8. Never _____ more than three rungs.
9. Be sure shoes _____ rungs.
10. Keep ladder free of _____ and _____.

PARTS OF A BOOK

DIRECTIONS TO THE TEACHER:

Being able to locate information in a book is an important skill in most vocational areas. This test is designed to indicate the student's information locating ability in using a TABLE OF CONTENTS and an INDEX.

The student will use a table of contents and an index from your vocational area to answer five questions for each of the two areas. CAUTION students that the Table of Contents and/or Index may have more than one page. Ask students to check all pages before writing down their answers.

SCORING:

Correct the two parts and enter the total score on the class-scoring sheet.

Example:

Score - Table of Contents . . . . . _____

Score - Index . . . . . + _____

(0-10) _____

WORLD OF WORK
PARTS OF A BOOK

ANSWERS

TABLE OF CONTENTS

MATHEMATICS TEST

DIRECTIONS TO THE TEACHER:

This test is designed to assess skill areas that might be needed in a vocational class.

The skills cross vocational areas.

The first ten questions comprise a basic skills assessment. The rest of the test uses various kinds of skills in diverse mathematical areas.

A student should not spend too much time on any one problem. He/she should be given extra time if necessary.

1. Allow one hour for students to complete this test.
2. Score the answers on the students' test.
3. Subtract the number missed from forty-two (42).
4. Enter the score on the class scoring sheet.

It is easy to tell which areas a student is weak in by referring to the test itself.

This is important when there are only a few wrong.

ANSWER_____

25. A field is 30 meters wide and 50 meters long. How many meters of fence will it take to go around the outside of the field?

ANSWER_____

26. You work 40 hours a week. You spend 5% of the time doing clean-up work. How much time is this per week?

ANSWER_____

FIRST AID TO OTHERS
FOLLOWING DIRECTIONS

TEACHERS SHEET

This paragraph is designed to see if students can read and understand aspects of first aid. The paragraph is written at the 4th grade level.

Possible Answers are listed below. Accept any reasonable alternatives.

There should be one answer for each number. Each is worth 2 points.

		POSSIBLE POINT VALUE
1.	Report it to the boss	2
	First Aid	2
	Get Help	2
2.	Person seems asleep	2
	Person is bleeding	2
3.	Get help	2
	Phone Ambulance	2
	Phone police	2
	Help person	2
4.	Restore breathing	2
	Stop bleeding	1
	Prevent shock	1
5.	Stop bleeding	2
	Restore breathing	1
	Prevent shock	1

HIGHEST POSSIBLE SCORE--10 (Five Questions)

FIRST AID FOR OTHERS
FOLLOWING DIRECTIONS

DIRECTIONS: Read this passage, then turn this page over and answer the questions on the next page.

"Report it to the boss." That should be your first thought when someone is hurt. Then your boss will decide what first aid is needed.

Suppose the boss is not there. You will need to think about first aid. If the injury is not bad, wait for the boss to come. Or you can go to him or her. But suppose the injury is bad. You need to do the best first aid you can at once.

Get help at once. If someone is near, one of you should phone for an ambulance or the police. Someone, also, must help the injured person if he or she knows how.

To help an injured person, these three things must be done (if necessary) in this order:

1. Restore breathing.
2. Stop bleeding.
3. Prevent shock.

TURN THIS PAGE OVER AND ANSWER THE QUESTIONS ON THE NEXT PAGE.

Kimbrell-Vineyard, Entering the World of Work, McKnight Publishing Company, 1978.

NAME_____

FIRST AID TO OTHERS
FOLLOWING DIRECTIONS I

STUDENT DIRECTIONS:

Using the passage you just read answer the following questions.

You may look back.

1. What is the first thought you should have?_____

_____

_____

2. How do you know if the person is badly hurt?_____

_____

_____

3. If someone is near what can they do?_____

_____

_____

4. If someone is badly hurt what should you do first, (if necessary)?_____

_____

_____

5. What should you do second, (if necessary)?_____

_____

_____

LISTENING SKILLS
FOLLOWING DIRECTIONS

DIRECTIONS TO THE TEACHER:

This test is designed to indicate how well a student follows oral directions.

GRADING:

Grade each question up to five points. If the student has all the parts even though they are misplaced, give two (2) points out of five on a question. Size is not important. There are fifteen (15) possible points.

READ ALL DIRECTIONS TO STUDENTS.

Answers

1. 
2. 
3. 
LISTENING SKILLS
FOLLOWING DIRECTIONS

You will hear directions read to you for each number on your worksheet. They will be read once quickly and then again slowly. Draw what the directions tell you to do.

1) Above the horizontal line draw five small squares along the line. Below the line draw two small circles along the line.

2) Draw two circles, one above the other. The circles should be about 1" apart.

3) Draw a square about 2" on each side. Draw a circle inside the square that touches all four sides of the square.

DIRECTIONS SHOULD BE READ OR TAPED

LISTENING SKILLS
FOLLOWING DIRECTIONS
STUDENT SHEET

The directions will be read twice. Once quickly and once slowly. You may draw at any time. Draw what the directions tell you to do.

1.

2.

3.

SAFETY WARNINGS

DIRECTIONS TO THE TEACHER:

This test is designed to show whether your students can understand safety warnings. The pictures may be used as worksheets or you may wish to make them into transparencies. They will match the numbered warnings on their papers with the lettered pictures.

ANSWERS

1. F
2. A
3. I
4. H
5. G
6. J
7. C
8. E
9. D
10. B

TOTAL SCORE_____

NAME_____

SAFETY WARNINGS

DIRECTIONS TO THE STUDENT:

Read all the following SAFETY WARNINGS below.

For each numbered safety warning(s) 1 to 10 you will write one letter, A-J, of the picture that best shows the safety warning(s).

ANSWERS

1. HARMFUL TO SKIN AND EYES. _____

2. KEEP OUT OF REACH OF CHILDREN. _____

3. READ (AND FOLLOW) DIRECTIONS CAREFULLY. _____

4. WASH HANDS AFTER USE. _____

5. SHAKE WELL BEFORE USING. _____

6. KEEP REFRIGERATED AFTER OPENING. _____

7. HARMFUL IF INHALED.
   AVOID PROLONGED BREATHING OF FUMES. _____

8. COMBUSTIBLE; DON'T USE OR STORE NEAR OPEN FLAME. _____

9. KEEP FROM FREEZING. _____

10. HARMFUL IF TAKEN BY MOUTH.
    POISON. _____
